

20 October 1952

MEMORANDUM FOR: Deputy Director (Intelligence)

SUBJECT: OSI Project on "Proposed Continuation of Intercept Program on Electromagnetic Radiations"

There are two aspects of this project which you should know:

1. OSI states that it has gone into the question with the Military Services, and OSI states that there are no external research projects of the Military duplicating this one.

2. OSI states that the Military concur in the desirability of the continuation of this project.

JAMES Q. REBER
Assistant Director
Intelligence Coordination

External Research Project
